

Speaker Series Lesson Plan for #1 and #2

The speaker series is just a part of our purpose in having these assemblies. The more important part is for students to have some time to reflect on what they heard during the presentations. We don't want to give them too many guidelines for their reflections, so we have a sheet with two questions to guide their thinking.

We have a guide for you to follow for both presentations:

Teacher: (Something along the lines of...) "You just witnessed some personal anecdotes from teachers you know. We are going to take a little time here to reflect on what we heard today."

Hand out one sheet to each student (teachers: fill one out of your own)
Questions: What resonated with you while listening to these presentations and what from these presentations can you relate to in your own life?

***10-15 minutes of quiet writing time

Spend 15 minutes to discuss. "Does anyone want to share?" (Be prepared to model by sharing your own response) Facilitate as much discussion as you feel comfortable with in your class.

Teacher collect handouts and keep in folder until next assembly. Please keep them private.

Thank you for helping us make this possible :)
